

Remote Creative Aging Program Planning Template for Synchronous & Asynchronous Work

Complete the grid with class ideas for synchronous meetings as well as asynchronous activities between classes to supplement the learning and/or offer potential for social engagement.

- For creative aging programs, asynchronous activities that boost social engagement may include one-on-one student engagement opportunities (phone meet-ups, discussion boards, office hours with the teaching artist, etc.)
- Asynchronous activities are not mandatory, but suggested
- There might be more than six synchronous class meetings; use this template as a guide

	Title	Synchronous	Asynchronous
Class One			
Class Two			
Class Three			
Class Four			

	Title	Synchronous	Asynchronous
Class Five			
Class Six			
Culminating Event
